

PRODUCT DATA

KOKO™ ML PLUS II

**Protected by US Patent 6,897,195*

Dec 2012

Trade Name: KOKO™ ML PLUS II

INCI Name: Menthyl Lactate (and) Menthol

Typical Properties:

Appearance:	Colorless liquid
Odor:	Faintly minty
Color (APHA):	80 Max.
Acid Value (mgKOH/g):	2.0 Max.
Optical Rotation:	-62.0° Max.
Menthyl Lactate Content:	40.0% Min.
Menthol Content:	40.0% Min.

Function: Active cooling agent. It delivers mild & long-lasting cooling effects. It also improves body odor, prevents sun damage and promote wound healing caused by sun light.

Applications: It can be used in both “Rinse off” and “Leave on” products. Examples are: facial cleansers, hair shampoos, body gels, shave products; sun care products, skin care products, body sprays, lip balms, deodorants, foot powders, and countless others where a cooling effect is desired.

Benefits:

- ◆ Quick response
- ◆ Sustained cooling effects
- ◆ Mild, non-irritating
- ◆ Cost effective

Storage: Cool, in tightly sealed containers.

Package: 1Kg/bag; 20Kg/drum.

Retest Date: 24 months from the manufacturing date in unopened package under condition indicated above.
